Product designer, designing experiences across SaaS, AI and EdTech. Based in Bangalore, India, I like to blend creativity with technical skills to transform ideas into user-focused digital solutions.

B.Tech in Computer Science, my five-year journey in design has led me to develop a unified design system, enhancing user experiences across Unacademy, Cohesive, and NextLevel.

Away from work, I bring a few of my ideas to life through my passion projects. I enjoy traveling through camera lens, capturing the streets, people, and their emotions. Keen on exploring leather crafting and pottery, seeking for non-digital art forms.

I'm looking for a role that challenges me everyday and allows me to collaborate with talented folks.

Passion projects

60fps
60fps.design

Design inspiration hub. Collection of product ads, portfolios, landing pages and exclusive content.

Web to Figma
web-to-figma.design

A plugin to collect and save design inspirations into Figma. Ready to add figma components.

smolapps
smolapps.co

Building small iOS apps while learning SwiftUI with Core Data.

and more

Experience

Unacademy

Principal Designer Apr 23 - Present

Spearheading design and research at Cohesive AI, focusing on creating generative AI products in text, image, and voice domains.

Lead Product Designer Apr 22 - Apr 23

Led NextLevel app design, boosting user engagement. Key role in Cohesive's Dev tool development and growth.

Senior Product Designer Sep 20 - Apr 22

Established standard design system, partnered in product strategy, and played a vital role in redesigning Unacademy's learner app.

Product Designer Sep 19 - Sep 20

Led live classroom design with interactive features, revamped Unacademy's website for 1M+ users, and drove A/B testing on app for growth.

Cartoon Mango

Product Designer May 18 - Aug 19

Had an incredible opportunity to design projects across sectors such as banking, sports, and transportation, among others. Collaborated and worked with senior folks, establishing a key milestone in my career.

Education

Amrita Vishwa Vidyapeetham 2014 - 18

Bachelor of Technology in Computer Science
